Fred Chamberinin and Jean Powell Followed by the Watch Committee Over the State Line and Half Way to Chamberlain, S. D.

BUTTE, Neb., April 13 .- (Special.) - According to report, Fred Chamberlain and Jean Powell have been lynched in South Dakota by vigilantes from Keya Paha county. The story is told by James Rhodes of Naper, this county. He says the lynching took place near the mouth of the White river, not far from the Sioux reservation, about fifty or sixty miles from Chamberlain, and about the same distance from the Nebraska line, Chamberlain and Powell were alleged to be cattle rustlers. Mr. Rhodes got the story from a Keya

Paha ranchman, who told him that the Keya Paha vigilantes had lately extended their organization to cover the territory included in the Great Sioux reservation, as far north as Chamberlain, and were determined to put a stop to the cattle thieving. Mr. Rhodes had twelve head of cattle and four horses stolen from his Keya Paha ranch within the past six months, and he has no been able to get any trace of them until lately, when a United States marshal was sent up to the White river country and found evidence that the stock, together with those of several other Nebraska parties, were in that vicinity. On being discovered it said that a party, aided by about 100 In dians and -half-breeds, "rounded up" marshal and compelled him to leave the neighborhood. A man named Spalding, he said, was the leader of the mob One the Powell boys is now serving a sentence having been convicted recently of stealing cattle. The vigilantes, incensed at their action, accused Powell and Chamberlain of inciting the violence, and without further ado hanged them. The truth or falsity of the report can only hazarded, but it is believed here that the men have been made away with. If such is

## NOT VIOLATING THE ORDER.

Superintendent McConnell on Complaint of Union Pacific Shopmen.

J. H. McConnell, superintendent of motive power and muchinery of the Union Pacific. when seen in regard to the statement made by one of the employes to the effect that the company was violating the order of the court by reducing wages in re-employing men at ten hours per day with wages paid on an eight-hour basis, said:
"The statement by that employe is not

true. There have been no cases of suspended employes being put back on the same kind of work on ten hours at eight hours' pay. All of the skilled mechanics in the shops are working eight hours per day. We have ertain class of employes such as wipers, coal eavers and car repairers who take care of trains and get engines ready for road service. Their duties require that they should work n ten hour shifts. There has been no coming obliged to work as stated by the article The Bee. Usually when any of the emloyes have any grievances they have not hesitated to go to Mr. Manning, division master mechanic, or myself, and complain about it. It is singular that any employe should make his complaint to the public before he went to an official and made the emplaint that an injustice had been done o a fellow laborer when he has had every pportunity accorded him to present grievances. In no instance have parties been refused an interview or an investigation of any alleged injustice. There has been no disposition on the part of the company officials to violate any of the instructions of the court in regard to the employes.

A Good Story on Bryan.

The Ohio Valley News relates what it ouches for as a true story about ex-Congressman Bryan of Nebraska. Struck by a Stray Bullet.

Yesterday afternoon, while sitting at a window in her residence, 1971 Cuming street, Mrs. Kirkpatrick was struck in the left temple by a bullet. She was looking out of the window facing cast, from which direction the bullet evidently came. The ball, which was partly spent by the time it struck her, buried liself under the skin of the forehead and was extracted by Dr. King. Patrolman Barnes, who lives next door, was notified, but was unable to find the person who lired the shot. The ball was of 12-calibr, and it is thought it was from a target rifle in the hands of some boy who was shooting at birds in the vicinity of the Kirkpatrick house. The injury is not dangerous.
